

NAVY LEAGUE OF CANADA

OFFICER TRAINING STANDARDS

NL(230)E

Chapter 1 – Introduction

Objectives of Navy League Officer Training

1. The primary duty of all Navy League Cadet Officers and Instructors is the SAFETY and WELL-BEING of Cadets in their charge. An Officer is to perform other duties as prescribed by the National Committee, Division, and/or Branch, but specifically is entrusted to deliver training that is careful, interesting, and fun. The Navy League Officer Development Program provides the candidates with the knowledge and skills to complete that duty. It also gives candidates an opportunity for self-improvement and provides leadership experience in a naval environment.

Needs Assessment

2. Prior to the development and distribution of this publication, the NL 7 (for cadets) and NL 64 (for officers) were the standards by which NL Cadet Corps and Divisions conducted training activities. Over time, the inability of the program to meet the requirements of divisions and corps led to a variety of interpretations and an ineffective national standard. The lack of consistency from one division to the next meant that NLCC members from across the country were trained differently. The NL 7 devolved into a “guide” with no regard to the objectives and ideals on which the program was founded.

3. In 1998, the National Council of the Navy League of Canada approved the development of a new training standard for NL Cadets, as well as a restructured officer program to coincide with it.

Training Summary

4. The above objectives will be accomplished over 5 instructional levels. Levels 1 to 4 are based on ½ training year of 15 weeks. Level 5 is based on 1 training year of 30 weeks. The following chart outlines the subject breakdown for each training level:

5. Each subject has an aim which states, in general terms, what the candidate should take away from training:

a) **Introduction to the Navy League**

Allows new members to gain some insight into the organization.

b) **Understanding Youth Issues**

c) **Abuse Recognition and Management**

d) **Harassment Policy**

When combined, these subjects encompass all material related to the prevention of abuse and harassment in the NL Cadet program.

e) **Environmental Awareness**

An introduction to environmental procedures that should be followed during NL Cadet activities.

- f) **Drill**
Instruction on basic standing and marching movements, ceremony, and procedure.
- g) **Uniforms**
An introduction to the NL Officer uniform and its maintenance.
- h) **Divisional System**
Information on the history, practice, and the Navy League's use of the divisional system.
- i) **Navy League Cadet Training Program**
A review of the material that is covered in the cadet training program.
- j) **Instructional Technique**
Theoretical and practical aspects of teaching to cadets.
- k) **Officer Like Qualities and Leadership**
Instruction on the methods and practices used by NL Officers when dealing with cadets.
- l) **Duties and Responsibilities**
Information on the responsibilities of different officer positions in a NL Cadet Corps.
- m) **Taking Command**
All procedures, reports, and practices required for taking command of a NL Cadet Corps.
- n) **Recruiting and Selection**
Discussion on recruiting plans and strategy, plus "best practices".
- o) **Branch Relations**
Discussion on the procedures for interacting with the local branch and how the relationship works.
- p) **Division Relations**
Discussion on the procedure for interacting with the division and how the relationship works.
- q) **Staff Management and Officer Development**
Covers officer development, records, and delegation of duties.
- r) **Local Safety Policy**
Information regarding safety during cadet activities and creating a safety policy.

Home Study Packages

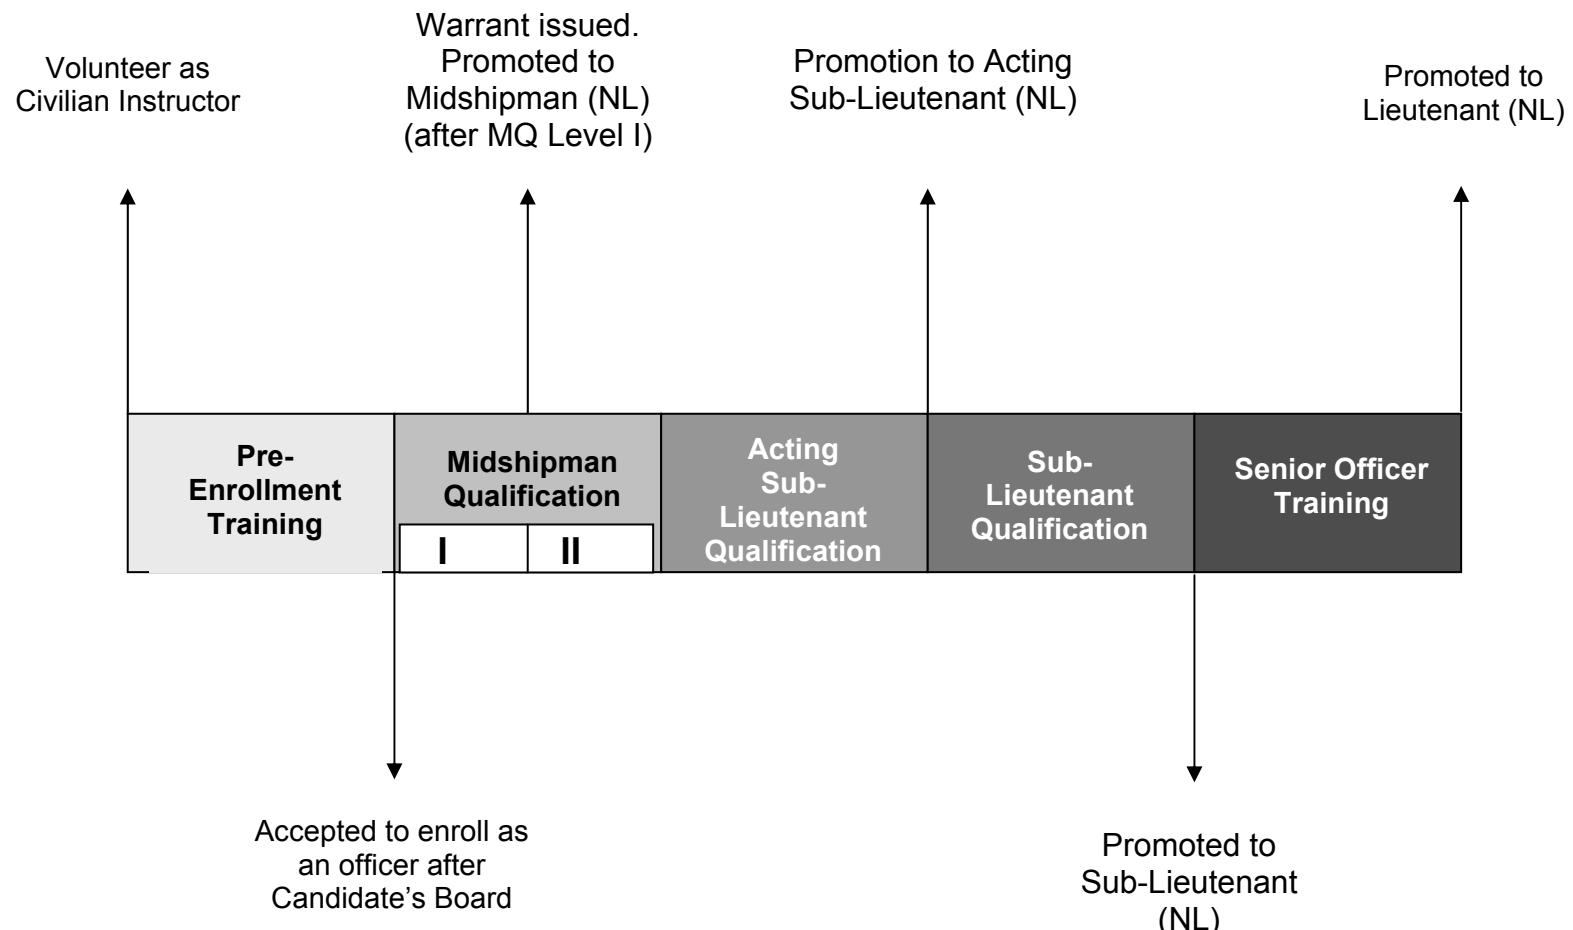

6. Home study packages were designed to allow officers assuming specific duties at the corps (i.e. Administration, Supply) to learn the material on their own time. There are also home study packages during the Pre-Enrollment Training. The intent is to be able to administer this training when required rather than once a year on a Divisional level. Support for completion of these packages should come from experienced officers at the corps level.

Amendments to National Standard

7. Amendments to this publication are the responsibility of the National Navy League Cadet Portfolio Chair. Suggested amendments shall be forwarded through the division to the National Office of the NLOC.

NAVY LEAGUE OFFICER DEVELOPMENT PROGRAM

Pre-Enrollment Training

OTS 101 Introduction to the Navy League of Canada

1. Performance

Demonstrate an understanding and knowledge of the Navy League of Canada.

2. Conditions

Candidates under training will be issued the Pre-Enrollment Package through the corps. This material is to be completed on the candidate's own time, however, deadlines should be decided upon with the Commanding Officer to ensure efficiency. Candidates will also be given direction from the corps' officers (CO, XO, Trg O) when required. Preparation for the assessment will be made through observation, research, and self-study.

3. Time

Not allocated. The candidates will complete this OTS on their own time.

4. Standard

Answer questions to a Candidate's Board in areas relating to the structure and organization of the Navy League of Canada.

5. Teaching Points

The following points will be covered in the package and during the Candidate's Board:

- a) the purposes and objectives of the Navy League of Canada (NL 24);
- b) the Navy League of Canada structure and organization (NL 35); and
- c) the history of the Navy League of Canada.
